Advice for pet owners for visiting your vet during the COVID-19 outbreak

Make an appointment by **phone or on-line.**

Before going to the vet, **call for advice.**

Visit vet **only for urgent procedures** after having called.

Only **one** healthy adult person should **accompany** the pet.

After arrival, **wait outside** and **follow instructions** from the staff.

Disinfect your hands when entering if the disinfectant is at disposal.

Avoid contact (no handshaking) and keep at least **2-meter distance** from other people at all times.

Try not to touch anything in the waiting and consultation room.

Contactless payment is preferred.

And don't forget to **wash your hands often** and properly.

These precautions are recommended to protect people; there is **currently no evidence that pets can be infected with the new coronavirus.**
